CAREER OBJECTIVE

To secure a challenging role in software development or AI engineering where I can apply my practical development experience and analytical mindset to build real-world products, contribute to team success, and continuously evolve as a problem-solving engineer.

EDUCATION

B.Tech AIML

Kongu Engineering College

2023 – 2027 | Erode, Tamil Nadu

- CGPA: 6.0*

HSC

AKV Matric Hr Sec School

2022 – 2023 | Namakkal, Tamil Nadu

- Percentage: 86

SSLC

AKV Matric Hr Sec School

2020 – 2021 | Namakkal, Tamil Nadu

- PASS

SKILLS

Programming Languages

C, Java, Python

Machine Learning Libraries

Numpy, Pandas, Scikit-Learn, Tensorflow, OpenCV

Tools & Platforms

Git, Jupyter Notebook

Web Development

React, Node.js, Express.js, HTML, CSS, MongoDB, MySQL

AREAS OF INTERESTS

Machine Learning | Full Stack Development

CERTIFICATES

- Java SE17 Developer, Oracle ☞
- Oracle Apex Cloud Developer, Oracle ☞

PROJECTS

Safina - Women Safety Analysis

- Designed a women safety application that provides instant emergency alerts and real-time location tracking.
- Implemented a multi-level escalation system to notify trusted contacts and emergency services during critical situations.
- Github: <https://github.com/Harish-sabari-130/Women-safety-application>

Live Vision - Real-Time Object Detection System

- Developed a real-time object detection system using YOLO to process live video streams.
- Improved model accuracy and performance through data preprocessing and model optimization techniques.
- Github: <https://github.com/Harish-sabari-130/Real-time-object-detection-using-YOLO>

Nomad Visa Hub – Digital Visa & Immigration Management System

- Designed and developed a ServiceNow-based visa management portal for application submission, secure document upload, and real-time visa status tracking
- Implemented workflow automation using Service Portal, Flow Designer, scheduled expiry alerts, and Agent Workspace playbooks to streamline visa renewal operations.

Expense Tracker Agent

- Built an automated expense tracking system to collect, categorize, and manage financial data using AI-based workflows.
- Implemented rule-based logic to analyze spending patterns and generate summaries for better financial insights.

EXPERIENCE

Internship

ServiceNow

01/2026 – 04/2026

- Completed hands-on training across ServiceNow platform fundamentals, ITSM, Flow Designer, App Engine Studio, UI Builder, and workflow automation.
- Built knowledge in scripting, AI-powered workflows, and low-code application development using ServiceNow tools and best practices.

Freelancer

Freelancer

- Delivered a client-based website solution, focusing on requirement analysis and implementation. (<https://firstinalltime.in/>)
